is set of programs, documentation & configuration of data
d) None of the mentioned

Ans: c

Q 2. What are attributes of good software ?

a) Software maintainability
b) Software functionality
c) Software development
d) Software maintainability & functionality

Answer: d

software engineering activities are not a part of software processes ?

a) Software dependence
b) Software development
c) Software validation
d) Software specification

Answer: a

Q 4. Which of these is incorrect ?

a) Software engineering belongs to Computer science
b) Software engineering

general form of System Engineering

c) Computer science belongs to Software engineering

d) Software engineering is concerned with the practicalities of developing and delivering useful software

Answer: c

Q 5. RAD stands for

a) Relative Application Development

b) Rapid

c) Rapid Application Document
d) None of the mentioned

Answer: b

Q 6. Which one of the following models is not suitable for accommodating any change?

a) Build & Fix Model
b) Prototyping Model
c) RAD Model
d) Waterfall Model

Answer: d

Q 7. SDLC stands for

Development Life Cycle

b) System Development Life cycle

c) Software Design Life Cycle

d) System Design Life Cycle

Answer: a

Q 8. What is the major advantage of using Incremental Model?

a) Customer can respond to each increment

b) Easier

debug
c) It is used when there is a need to get a product to the market early
d) Easier to test and debug & It is used when there is a need to get a product to the market early

Answer: d

Q 9. The spiral model was originally proposed by

Boehm

c) Pressman

d) Royce

Answer: b

Q 10. Selection of a model is based on

a) Requirements

b) Development team & Users

c) Project type and associated risk

d) All of the mentioned

Answer: d

Q 11. Which one of the following is not a software

a) Productivity
b) Portability
c) Timeliness
d) Visibility

Answer: b

Q 12. _____&_____ are two kinds of software products.

a) CAD, CAM
b) Firmware, Embedded
c) Generic, Customised
d) None of the mentioned

Answer: c

Q 13. RUP stands for_____

_____

a) Rational Unified Program, IBM

d) Scrum is an agile method which means it does not have phases

Answer: b

Q 17. Which four framework activities are found in the Extreme Programming(XP) ?

design,
coding,
testing
b)
planning,
analysis,
design,
coding
c)
planning,
design,
coding,
testing
d)
planning,
analysis,
coding,
testing

Answer: c

Q 18. The user system requirements are the parts of which document ?

a) SDD
b) SRS
c) DDD
d) SRD

Answer: b

of requirements ?

a) Availability
b) Reliability
c) Usability
d) All of the mentioned

Answer: d

Q 20. What are the four dimensions of Dependability ?

a) Usability, Reliability, Security, Flexibility
b) Availability, Reliability, Maintainability, Security
c) Availability, Reliability,

d) Security, Safety, Testability, Usability

Answer: c

Q 21. Which one of the following is a functional requirement ?

a) Maintainability
b) Portability
c) Robustness
d) None of the mentioned

Answer: d

Q 22. _____ and _____ are the two issues of Requirement Analysis.

Design
b) Stakeholder, Developer
c) Functional, Non-Functional
d) None of the mentioned

Answer: b

Q 23. Which of the following property does not correspond to a good Software Requirements Specification (SRS) ?

a) Verifiable
b) Ambiguous
c) Complete
d) Traceable

Answer: b

is Requirements Management Important ? It is due to the changes

a) to the environment
b) in technology
c) in customer's expectations
d) in all of the mentioned.

Answer: d

Q 25. The UML supports event-based modeling using _____ diagrams.

a) Deployment
b) Collaboration
